

## Stitch Key:

I have taken some very useful stitch key from Eunny Jangs' Bayersiche socks. All of the longer stitches (only 2 wide) are read from right to left, as in row 1 in knitting. Also knitting in the round they will always be approached in that direction.

means knit through the back loop.

means plain knit

means purl.

means a right-leaning cross Both stitches twisted. To do this without a cable needle, slip these two stitches to the right needle. Holding the left needle at the back of the work, insert the tip of the left needle into the back of the first stitch slipped. Pull the right needle free of both stitches (the skipped stitch will be loose for just a second, here), and pick the loose stitch up from the front. Put it back on the left needle and knit each stitch through its back loop.

means a left-leaning cross both stitches twisted. Slip these two stitches to the right needle. Holding the left needle at the front of the work, insert the tip of the left needle into the front of the first stitch slipped. Pull the right needle free of both stitches and pick the loose stitch up from the back. Put it back on the left needle and knit each stitch through its back loop.

means a right-leaning twisted knit with purl. Slip these two stitches to the right needle. Holding the left needle at the back of the work, insert the tip of the left needle into the back of the first stitch slipped. Pull the right needle free of both stitches and pick the loose stitch up from the front. Put it back on the left needle. K1tbl, P1.

means a left-leaning twisted knit with purl. Slip these two stitches to the right needle. Holding the left needle at the front of the work, insert the tip of the left needle into the front of the first stitch slipped. Pull the right needle free of both

stitches and pick the loose stitch up from the back. Put it back on the left needle. P1, K1tbl
